

# St. Barts Outreach Team

During Lent of 2007 a group of members of Sr. Barts met on Wednesday evenings to examine the Outreach process in use at that time and to recommend the guideline factors for approval of future Outreach programs. The purpose of the team is to approve the undertaking of possible Outreach programs **NOT** to chair the efforts. The process of organizing the operation of the project and overseeing the operation of the same is the responsibility of the person requesting approval of the project.

The guidelines can best be summarized as:

1. It must be self supporting. No funds are allocated in the Church budget for projects.
2. It must have a definite beginning and ending date.
3. It must be reviewed during the operation to determine if the stated object was being met.
4. The proposer is responsible for organizing the project getting sufficient volunteers to carry out the project.

Future projects under consideration are:

1. Working with residents at area nursing homes
2. Volunteers to assist at Gateway Homes in Southside
3. Write a grant request for economic assistance for an African village

Our first project was the collection of emergency bags for use by the Henrico Department of Social Services when persons have to be removed from a home quickly. The bags were due back by September 30, but we know there are some that have not yet come in. When we get a final count, it will be published on this page.

At present, the committee members are:
